

The Blood Mage

The Blood Mage is a turn-based Puzzle/RPG hybrid where you need to find a path to the powerful blood crystal.

You play as a blood mage which means that every spell you cast is draining your life essence; your health doubles as your mana pool.

The path you take and the order in which you encounter the fights is the puzzle you need to solve.

You can use everything strategically, items and enemies alike. It is normal that you have to restart more than once. Next time you will get further!

SmokeSomeFrogs

SmokeSomeFrogs is a German Indie Studio. SmokeSomeFrogs released their first title 2017 - „IntraSystem: Trust Issues“. „Bring Back The Sun“ was the first game of SmokeSomeFrogs that released on Steam. Daniel da Silva is the most member member of the studio. He's proud father of a cat, loves smoking but shouldn't do it, and has weird hobbies like reading about web performance.
