

The Blood Mage II

The Blood Mage 2 is a first-person magic-tower-like.

It's a turn-based Puzzle game disguised as a Dungeon Crawler RPG with heavy focus on managing the resources you have. Prepare for a rare puzzle experience!

You play as the titular blood mage. Every spell you cast is draining your life essence; your health doubles as your mana pool.

The path you take and the order in which you encounter the fights is the puzzle you need to solve. You can use everything strategically, items and enemies alike. Prepare to restart more than once. Next time you will get further!

The Blood Mage 2 comes with new graphics, new environments, new spells! You don't need to play the first entry to enjoy this game.

SmokeSomeFrogs

SmokeSomeFrogs is a German Indie Studio. SmokeSomeFrogs released their first title 2017:

„Intra-System: Trust Issues“.

„Bring Back The Sun“ was the first game of SmokeSomeFrogs that released on Steam.

Daniel da Silva is the founder of the studio and gets help from his wife Luca Marie da Silva from time to time. He loves to experiment with genres and has a deep fascination for anything unusual.
